

THE WASP INVASION – One-Page Pitch

THE WASP INVASION – One-Page Pitch

sci-fi thriller – 90–100 min – USA

Earth is quietly invaded by an alien species no larger than a wasp. Disguised as insects, these one-centimeter creatures use biophotonic light signals to form a collective intelligence - growing smarter the closer they swarm. Alone, they are harmless. Together, they're lethal.

As their numbers multiply and their hunger grows, humanity begins to fall -one mind at a time. But there's one weakness: daylight scrambles their communication. With time running out and nightfall approaching, Earth's survival hinges on understanding a species that thinks as one... and hunts from above.
